VACANCY

Working for Triferto means being part of a global fertilizer wholesaler where top talent is given the chance to flourish. With our new, efficient fertilizers, high quality standards, expertise and excellent logistics network we lead the way in our field. Our ambition is to be a successful player on the fertilizer market, both now and in the future. That's why we are keen to find people who excel at what they do. Further information about Triferto can be found at: www.triferto.eu. Are you interested in becoming part of Triferto's success? We are currently looking for a full-time:

Supply Chain Manager

Job description

As Supply Chain Manager at Triferto you will be responsible for developing, implementing and managing our supply chain policy. You will meet improvement targets relating to our service, quality, processes and costs. You will optimise results by ensuring our warehouses are used efficiently. This will involve organising efficient restocking by suppliers and just-in-time deliveries to our customers in the Netherlands, Germany, Belgium and France, as well as for the Export department. You will report directly to the Logistics Manager (MT).

You will focus on:

- Managing the logistics chain (capacity planning, shipping, packing, blending, storage and delivery) and giving employees guidance and coaching;
- Increasing the professionalism of (designing, organising and improving) supply chain workflows;
- Keeping logistics agreements with Sales and Marketing up to date. You will be able to translate commercial targets clearly into practice for Triferto's logistics organisation (lead times, forecasting);
- Conducting purchasing negotiations with logistics services providers;
- Monitoring the process and ensuring progress by means of timely coordination within the chain;
- Reporting on the basis of logistics parameters;
- Managing complaints;
- Initiating process improvements to increase efficiency, shorten throughput times, reduce complexity and cut costs.

Requirements

- Higher education or equivalent ability in the area of logistics or management;
- Knowledge of and affinity with IT and project management;
- Good command of English and French;
- Affinity with technology, quality-oriented thinking.

Skills

- Leadership (people-oriented and task-oriented) and ability to connect people;
- Analytical and result-focused approach, perseverance and independence;
- Hands-on, problem-solving and service-oriented mentality;
- Good communication skills, convincing and proactive.

What we offer:

- An employer with an informal working environment;
- A varied and challenging role with scope for personal and professional development;
- Good employment conditions with opportunities for career advancement.

Triferto would be interested to hear from talented individuals who are keen to take on this role and make it a success.

Responding to this vacancy
