

# eCAL Temperature & Process Controller

Single loop temperature / process controller 1/16 DIN (48 x 48mm) & 1/8 DIN (96 x 48mm) Profiler function – 2 programs x 16 segment 70mm depth behind panel Universal Input & 2 or 3 Outputs

The markets for industrial and scientific equipment demand that controllers not only provide a cost-effective and compact solution but also add-value to the overall competitive characteristics of the machine by offering improved aesthetic design or enhanced functions & diagnostics. The E6C economy controller has been designed to encompass these requirements by a global market leader in temperature and process control products.
