

## ST6000 Series

Achieve a high level of visualization with the

# New Basic HMI

## Refined

An innovative HMI with a sophisticated design that transforms simple machines.

## Simple & Easy

The simple design and interface help increase productivity and efficiency.

### Connected & Secured

Seamless connectivity with various devices to enhance their flexibility and increase value.

# Optimize operations and machine information

#### **Better Graphics and Font**

Display beautiful fonts with anti-aliasing.Customize gradation and transparency to meet your needs.

#### Multi-screen

Simply display all necessary screens in one place.

#### **Responsive Behavior**

Adapt the size of information to meet your needs with one click on the dynamic display.

#### **Theme and Color Set**

2 themes and 10 color sets support the user in simply rendering displays.Customize your display by simply choosing a theme and color set.

#### **Easily Identify Patterns**

Using various features, including comparisons graphs, can be more expressive than ever

Reduce time required to create screens with new design methods
