

Electronic Preset Counter tico 772

Now also available with backlight.

HENGSTLER

TICO 772: BACKLIGHT INDIVIDUALLY ADJUSTABLE

The tico 772 is now available with 4 different backlight versions:

- Transflective positiv: black figures on back lighted ground
- Transmissive negativ: white figures on black ground
- Transmissive red: red figures on black ground
- Transmissive green: green figures on black ground

You have the possibility to adjust the intensity of the backlight by yourself direct at the counter. Therewith you can set the counter to intensity that fits optimal to your surrounding

Furthermore you can use the advantages of the tico 772

- Universally applicable as tachometer, timer shift-counter, batch-counter, ...
- Simplified handling
- Separate preset adjustment (signal 1, trail preset, range or limit value)
- Versatile and easy to program
- Impressive, clearly readable display in 48x48 mm
- Input frequency up to 60 kHz
- Easy installation due to pluggable terminals
- 3 Presets

TICO 772: OPENS UP VERSATILE POSSIBILITIES

The fact that the new tico 772 is suitable for a wide range of applications offers you more freedom in planning. Even more: Due to the 3 presets and the simple programming the tico 772 can easily be adjusted to new requirements or processes.

Typical applications are:

- Time controlling
- Position indication
- Rotation speed controlling
- Batch counting
- Cutting to length

TICO 772: SIMPLE TO HANDLE; EASY TO PROGRAM

To use this counter you don't have to be a graduat engineer and you don't need a manual. This is especially important when more than one employee uses the counter. To ensure this the counter comes with an easy readable display (48x48 mm) with large digits (9,3 mm and 7,2 mm) and with only 4 big keys with whom presets, prescaler and sepe-rate totalizer are directly adressable. Even the time counter is adressable directly.

The installation is easy and comfortable due to pluggable terminals.
